EDUCATION

University of California, Los Angeles (GPA 3.8)

Bachelor of Science, Applied Mathematics

Los Angeles

Expected July 2026

Bachelor of Science, Statistics & Data Science

- Statistics & Data Science Capstone: worked with a UCLA Health client on analyzing self-reported questionnaire data from scarring alopecia patients for significant associations with mental health using statistical tests in Python
- Coursework: Statistical Models and Data Mining, Computation and Optimization in R, Design and Analysis of Experiment, Intro to Networks, Foundations of Environmental Policy and Regulation, Object-Oriented Programming

PROFESSIONAL EXPERIENCE

San Mateo County Sustainability Department

Redwood City, CA

Climate Protection Team Intern, 40 hours/week

Jun 2025 - Aug 2025

- Identified high impact sites for EV chargers by building spatial map in ArcGIS and integrating electric grid load capacity, charger density, and demographic data layers, resulting in clearer advocacy for site-level support in EV charger installation
- Built internal dashboard aggregating performance metrics for 15 clean energy incentive programs in Excel, identifying trends to inform future county program design and funding allocation for meeting the county's climate action plan targets
- Managed an RFP and coordinated contractor logistics for an innovative cost study on commercial kitchen electrification

Global Nomads Group

Remote

Curriculum Coordinator, 10 hours/week

Dec 2022 - Dec 2024

- Designed and developed a 10 unit curriculum on water management and land subsidence in California's Central Valley
- Managed consultations and review cycles with 8 domain experts including USGS hydrologists, tribal authorities, and frontline communities, incorporating feedback to align curriculum with NGSS standards and funder requirements
- Synthesized aquifer simulations, historical documents, and analysis of USGS precipitation data from weather stations across California in partnership with Concord Consortium to develop data-driven materials
- Reviewed curriculum outputs for consistency and accuracy by incorporating field-test feedback from 9 classrooms, refining content to validate student accessibility and ensure alignment with educational standards

Team Leader, 10 hours/week

Oct. 2022 - Dec 2022

- Supervised six-person research team through curriculum design, establishing quality standards, reviewing outputs for accessibility and accuracy, and mentoring teammates on research methodology throughout the process

Each Green Corner

Remote

Data Evaluation Intern, 5 hours/week

Feb 2023 - Jun 2023

- Aggregated harvest data from 12 urban garden sites collected via Google Forms, developing automated metrics dashboard in Google Sheets that refreshed in real-time for stakeholder monitoring
- Analyzed site-level performance and synthesized findings into reports and recommendations for nonprofit leadership

VOLUNTEERING

California Youth Services

Remote

Data Management & Processing

Jul 2025 - Present

- Streamlining data entry and reporting processes by developing back-end forms and workflows in Apricot Social Solutions
- Collaborating with staff to understand program needs and translating them into user-friendly data collection tools

SKILLS

Technical: R (tidyverse, mlr3verse), Python (NumPy, Matplotlib, Pandas), SQL, ArcGIS, Power BI, Excel, Quarto

Languages: English (native), Mandarin (fluent)
