SUMMARY

Analytically-driven recent graduate looking to work in clean energy programs at the local government level. Experience working previously in nonprofit and local government sustainability positions; skilled in stakeholder coordination, incorporating equity into program design, navigating government processes, and handling data.

EDUCATION

University of California, Los Angeles *Los Angeles, CA*
Bachelor of Science, Applied Mathematics (GPA 3.7) *July 2026*
Bachelor of Science, Statistics & Data Science (GPA 3.8)

- Statistics & Data Science Capstone: worked with a client from UCLA Health on analyzing self-reported questionnaire data from scarring alopecia patients for significant associations with mental health using statistical tests in Python
- Academies of Social Entrepreneurship Alumni: Analyzed publicly available datasets, conducted market research, and set up financial projects as a technical consultant for a nonprofit client in Orange County looking to launch a new venture
- UCLA Sailing Team Skipper & Apparel Officer
- Coursework: Statistical Models and Data Mining, Computation and Optimization in R, Design and Analysis of Experiment, Intro to Networks, Monte Carlo Methods, Applied Numerical Methods, Partial Differential Equations

National University of Singapore *Singapore, Singapore*
Exchange student *Aug 2024 - Dec 2024*

- Coursework: Stochastic Processes, Mathematical Modelling, Japan: A Green Nation?, Fashion: East v.s. West

PROFESSIONAL EXPERIENCE

San Mateo County Sustainability Department *Redwood City, CA*
Sustainability Specialist *Jun 2026 - Dec 2026*

- Led end-to-end update of 65 energy and water efficiency kits across 33 libraries by adding trackable metrics, redesigning kit contents, and coordinating an outreach campaign, delivering project in five months and 15% under budget.
- Connected staff from 22 jurisdictions to building electrification and climate resources through a bimonthly newsletter (1,000+ subscribers, 45-65% open rate) and monthly virtual and in person workshops.
- Updated dashboard of 15 clean energy program outcomes in Excel by integrating 3 data sources, documenting clear annual update processes, and visualizing summary metrics for jurisdictions to communicate climate change progress with their audiences.

Climate Protection Team Intern *Jun 2025 - Aug 2025*

- Identified high impact sites for EV chargers by building spatial map in ArcGIS and integrating electric grid load capacity, charger density, and demographic data layers, resulting in clearer advocacy for site-level support in EV charger installation
- Built internal dashboard aggregating performance metrics for 15 clean energy incentive programs in Excel, identifying trends to inform future county program design and funding allocation for meeting the county's climate action plan targets
- Inventoried over 100 methane-fueled appliances across 12+ school sites and estimated decarbonization potential
- Managed an RFP and coordinated contractor logistics for an innovative cost study on commercial kitchen electrification

ASEAN Foundation Model ASEAN Meeting (East Asia Summit 2025) *Jakarta, Indonesia*
U.S. Delegate *Aug 2025 - Sep 2025*

- Represented the Lao PDR in the Economic Pillar by researching regional regulatory frameworks and investment incentives and drafting policy recommendations for offshore renewable energy development across Southeast Asia

Global Nomads Group *Remote*
Curriculum Coordinator *Dec 2022 - Dec 2024*

- Designed and developed a 10 unit curriculum on water management and land subsidence for California middle schools
- Synthesized data from aquifer simulations, historical documents, and analysis of USGS precipitation data from weather stations across California in partnership with Concord Consortium to develop data-driven materials
- Managed consultations and review cycles with 8 domain experts including USGS hydrologists, tribal authorities, and frontline communities, incorporating feedback to ensure curriculum meets NGSS standards and funder requirements

Team Leader *Oct 2022 - Dec 2022*

- Supervised six-person research team through curriculum design, establishing quality standards, reviewing outputs for accessibility and accuracy, and mentoring teammates on research methodology throughout the process

Each Green Corner *Remote*
Data Evaluation Intern *Feb 2023 - Jun 2023*

- Aggregated harvest data from 12 urban garden sites collected via Google Forms, developing automated metrics dashboard in Google Sheets that refreshed in real-time for stakeholder monitoring
- Analyzed site-level performance and synthesized findings into reports and recommendations for nonprofit leadership

VOLUNTEERING

California Youth Services *Remote*
Data Management & Processing Volunteer *Jul 2025 - Feb 2026*

- Streamlined data entry and reporting processes by developing back-end forms and report in Apricot Social Solutions to better understand student and report program metrics to donors

California Youth Climate Policy Leadership Program *Remote*
Mentor *Aug 2022 - Present*

- Providing mentorship to California high schoolers on how to build coalitions, engage in public comment, and draft and present climate action policy to school and county boards

Sequoia Union H.S. District Sustainability Committee *Belmont, CA*
Founder & Director *May 2021 – Sep 2022*

- Directed a 30+ member team of students, school faculty, community organizations, and Board of Trustee members on district-wide climate action projects through a committee that is still running today
- Received Sustainable & Climate Resilient Schools Challenge Award; served as a panelist at the 2022 Green California Schools and Higher Education Summit and at the New Taipei 2025 Youth Climate Forum

PUBLICATIONS

- "One Forum, Many Voices: A Few Reflections on Global Climate Action," Ten Strands, Nov. 2025
- "Beyond Melting Glaciers: Building a Climate Justice Curriculum By Youth, for Youth," Global Nomads, Sep. 2025
- "Climate Change Will Be Taught in California Middle Schools, Thanks to Our Curriculum," Teen Vogue, Jan. 2025

SKILLS AND MORE

Languages: English (native), Mandarin (fluent), German (elementary)
Technical: R (tidyverse, mlr3verse), Python (numpy, matplotlib, seaborn), SQL, Power BI, Excel, Java, Quarto
